

Head -to-Head: The Ultimate JDE Automation Comparison:

Criteria	Manual Testing	Test Tools	Manual Processes	RPA Tools	ACRA (3-in-1)
Ease of Use	Low	Medium	Low	Medium	High – purpose built for JDE business users
Setup Time	Long	Months	Long	Few Weeks	Days– Out-of-box support for JDE
Scope	Tests only	Tests only	Processes only	Processes only	Tests + Processes + Documentation
Accuracy	Human error	Script-dependent	Human error	Conditional/ Good	Consistently high
Maintenance	Manual	Frequent fixes	Manual	High	Minimal maintenance with auto-healing automation. Our libraries are continuously enhanced to support updates and changes in new JDE releases.
Integration with JDE	Native manual	Limited	Native manual	Partial	Deep JDE integration
Documentation	Manual	Partial	Manual	Partial	Auto-generated, audit-ready
ROI	Low	Low	Low	Medium	Highest– one platform replaces four

You get it all with ACRA. Test automation, process automation, and documentation all come together in one simple platform.
